#### CORRECTION

On page 1133 of the article entitled "Inhibition of L-Thyroxine Monodeiodination by Thyroxine Analogs" by Frank C. Larson and Edwin C. Albright (*J. clin. Invest.* 1961, **40**, 1132), three molar concentrations were omitted from Table I. The subheadings for columns 1, 2 and 3 of the table under the heading, "Percent inhibition with increasing molar concentrations," should have been " $10^{-7}$ ,  $3 \times 10^{-7}$  and  $10^{-6}$ ," respectively.
